Session 4

- Implementing in your workplace

Q&A & Feedback

Implementing in your workplace

Review your workplace

- What are you doing well
- What are you doing all the time
- What items are mundane and repeatable
- Where are the complicated tasks
- Where are errors introduced
- What is consuming time

Reviewing the workplace

Repeatable tasks / Failure Introduction

Reviewing today

DevOps ...

- ... is an culture, not a single tool or team.
- ... has the ability to include many methodologies
- ... has tools that teams use to streamline your pipeline
- ... creates reproducible outcomes
- ... creates an atmosphere of transparency, accountability and collaboration
